Dr. Shanley- Dr. Shanley stated that he personally knows people who are working on a proposal to bring craft brewing to Radford and that currently there are about 11 craft breweries in the NRV and Roanoke. Dr. Shanley believes that craft beverage manufacturing is the newest growth industry and is a great opportunity to diversify businesses in Radford. This would benefit locals and tourist, as well as attract individuals into town and make Radford more attractive. Dr. Shanley asked the crowd who was here in favor of the craft beverage manufacturing and many in the crowd raised their hand, he ended by encouraging Council to support this ordinance.

Ms. Laurie Murphy- Ms. Murphy is the owner of Green Heron Arts and is in favor of the craft beverage ordinance, stating that she would remain open longer if a brewery was downtown and that by allowing for breweries in downtown it would encourage retail businesses to come in and be great for economy there.

Mr. Jeff Kleppin- Mr. Kleppin stated that when Deschutes announced in they were coming to Roanoke they held an event at Blue 5 in Roanoke which he attended. While there, Mr. Kleppin had the opportunity to speak with Gary Fish CEO of Deschutes and asked him why they chose Roanoke. They wanted to make a difference and they day of the Street Pup in Roanoke they raised \$85,000 for local nonprofits. Mr. Kleppin went on to encourage Council to vote for the ordinance and talked about how craft beverage manufacturers are popping up everywhere on the I-81 corridor. Mr. Kleppin concluded by stating that breweries will bring people into Radford for events, as well as attracts local food vendors and serves as ambassadors for Radford. Vote for the ordinance craft beverage manufacturers are local entrepreneurs who want to be a part of the community.

Ms. Laurie Buchwald- Ms. Buchwald stated she appreciated Jeff’s comments. While in Nelson County on a motorcycle Ms. Buchwald noticed that they highlight all the breweries, wineries and cideries within the region. She likes that collaboration and believes that Radford needs to bring businesses into the community. Go for it.

Re: Request Closure of the Norwood Square Lot for 'HarvestFest' October 31, 2016

Date: September 1, 2016

Oasis Church would like to request permission to use the Norwood Square parking lot on Monday, October 31 for 'HarvestFest' in conjunction with the Chamber of Commerce and the Trick-or-Treat Trail.

We have appreciated Radford City's partnership in helping us sponsor this event on Halloween for the last 10 years, since 2006. We are again excited for this year's event. We typically serve 600+ kids and families at this event. 'HarvestFest' activities will include character photo booths, games, blow-ups, music, popcorn and more. All of these activities are provided free-of-charge, as we provide the volunteers and underwrite the cost of the event. The event will run from 4:00-6:00 pm.

We are requesting that a portion of the Farmer's Market Parking lot be closed from 3:00-7:00 pm on Monday, October 31. This will allow us time before and after the event for set-up and tear-down. We can provide a barricade, cones and fencing so that there is still access to the back area of the parking lot and the back of the adjacent businesses, but also ensure the safety of the children and families.

Thank you for your consideration on this matter. Please contact me with any questions or if you need more information in consideration of this proposal.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven Reese".

ACCE

Access to Community College Education

Access to Community College Education (ACCE) is a public/private partnership that makes college available tuition-free to high school graduates from participating localities in the New River Valley by covering the cost of tuition for two years at New River Community College. The locality designates a dollar amount that is matched by donations from local industries and private sponsors. ACCE supports as many students as possible based on student need and funds available for the program. The goal of the ACCE program is for students to graduate from NRCC prepared to join the workforce or transfer to a four-year university without college debt.

The Facts:

- High School/Private School/Home School students who graduate with a 2.5 GPA qualify.
- Students must first apply for financial aid (Free Application for Federal Student Aid) in order to participate.
- The program supports as many eligible students as possible based on financial need and funds available.
- Students will be required to attend an ACCE informational session.
- Student must maintain full-time enrollment of 12 credits in fall/spring semesters.
- Funds will not support more than 15 credits in fall/spring semesters.
- Students must maintain a 2.5 GPA at NRCC.
- Students must pay for their own textbooks.
- Students must enroll in a degree or certificate program that meets federal financial aid requirements.
- Students must take a college success skills course during their first semester enrolled at NRCC.
- Students may not take online courses during the first semester, except "College Success Skills."
- It is strongly recommended that students do not work the first semester to ensure greater academic success.
- Students are required to participate in 40 hours of Pulaski County community service each semester.

VML Risk Management Grant

Background Information:

Each year VML Insurance Programs distributes Risk Management Grants to members expanding their risk management programs. The funds are to be used to purchase safety equipment, attend training sessions, and for special educational endeavors aimed at broadening member understanding of governmental management. This is a competitive grant. Radford is eligible to request up to \$4,000 each year. This grant is administered internally by the Safety Committee.

Action Requested:

The Police Department submitted a proposal for a safety restraint chair in the booking area and 12 tactical illuminator LEDs/rails for weapons for a total of \$4,000. VML awarded the grant as written.

Request is to appropriate the grant per AO 1682.13.

Pros and Cons/Financial Implications:

Pros: The safety restraint chair is intended to help control combative, self-destructive, or potentially violent detainees. It can reduce the risk of physical harm to both the detainee and staff.

Acquiring lights/rails will enhance officer safety by allowing them to be more prepared in low light situations.

Cons: None.

Financial impact on the department and City: No impact – 100% grant funded
